THE SUEZ CANAL.

Several canal schemes being before this Congress, it may be of some interest to know the following facts: In 1870 the British tonnage that passed through the Suez canal was 64 per cent. of the whole; last year it was 82 per cent., 2,256 vessels having passed through the canal under the British flag, and only 109 under French colors. The French built the canal, but the English have used it almost exclusively, and have made it a most remunerative investment. Shares of a nominal value, says the New York Tribune, of \$100, which were quoted as low as \$44 in 1863, shot up in 1880 from \$143 to \$265, and in the next year were quoted at \$340 after the payment of a dividend of nine per cent. During the last nine months the Suez shares have been borne on the crest of stock speculation which has rolled over France. In January they rose to \$700, and although there was a rapid fall to \$420 while the panic was at its height, the assurance of a dividend of 12 per cent., based upon an increase in receipts of over \$2,250,000, still makes the stock peculiarly attractive. In 1871 the revenue of the Suez Canal amounted to \$1,700,000; in 1881 it had grown to more than \$10,000,000.

DEATH RATE IN SAN FRANCISCO.

The death rate for the first six days of this week at San Francisco is on the increase—114 in all, or 19 a day. This is a most alarming mortality, considering the warm weather now prevailing in California. Miasma, the outgrowth of foul air with a climbing thermometer, is the results of bad sewerage, and the unhealthfulness of the large city. The municipal authorities are thoroughly alive to the situation, but their hands are tied by entanglements and quibbles of over-legislation, and they have no means of affording the necessary relief.

EDITORIAL NOTES.

THE GAZETTE misunderstood the position of the Journal on the Convention business. When it said, the other day, "if it be true that the resolution reported above was adopted at the last State Convention then Reno relinquishes all right to the coming Convention, and will consent that Carson shall be the place of meeting," it seemed to speak as one having authority, and not as the scribes. We thought it thought it owned the Convention.

The Editor of Our Continent wisely refrained from putting all the good things in the first number. No. 5 is the best one issued so far. It is a delightful and valuable paper.

The police at San Francisco have been instructed to enforce the law against kite-flying.

WESTERN TELEGRAMS.

A Fight with the Earps.
SAN FRANCISCO, March 23.
A Tombstone dispatch says: A reliable young man just from Burleigh Springs, eight miles south of this city, states that a desperate fight took place there last night between six men of the Earp party and nine cowboys, headed by the notorious Curly Bill, who killed Marshal White of Tombstone. The cowboys ambushed the Earps as they were approaching the Springs and poured a deadly fire into them, wounding one man slightly and killing a horse. The Earps returned the fire and then charged upon the cowboys, who ran, leaving Curly Bill dead upon the field.

Washouts on the Track.
WINNEMUKA, Nev., March 23.
Washouts in a heavy fall a mile above town stopped all trains here last night. A large force of carpenters and laborers have been at work since last evening, and have repaired the damage to the track, and the passenger trains east and west can pass on time.

Shooting in Washington Territory.
PORT TOWNSEND, March 23.
On Sunday last one Brown, a blacksmith, of Orcas Island, shot and killed one Jeffries, a fisherman, of Waldron Island. The dispute was over a small bill. Brown, before a Justice of the Peace jury, was acquitted.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

The Chinese Bill Awaiting President Arthur's Signature.
WASHINGTON, March 23.
The Chinese bill was last night delivered to President Arthur, and now only awaits his signature to become a law. It will doubtless be sent by him to the Secretary of State to-day, in accordance with the usual custom of submitting every bill received by the President to the head of the appropriate executive department for examination prior to its final approval. In the ordinary course of business the Chinese bill will not be returned to the White House before Monday. Whether its return be hastened or not, however, there is very little prospect for any announcement of the President's action upon it at so early a date as to-morrow, and a delay of several days need not occasion any alarm or uneasiness. Senators Jones (Nev.) and Miller and Representative Page, all of whom have talked with the President, both before and after the bill's final passage, continue to express their entire confidence that, notwithstanding the heavy pressure brought to bear upon him in favor of a veto, he will certainly sign it.

INGERSOLL'S COMMENTS.
Colonel Bob Ingersoll remarked to-day that if a respectable Chinese policy was adopted by this Government, there would be a traffic with China far greater than now passes through the Suez canal.

THE PRESS.
NEW YORK, March 24.
The Chinese bill is the question of the hour. All journals dissect the year and nays on the bill as passed, and on Kasson's amendment, and comment upon those who dodged, or voted wrong, or paired.

The New Railroad.
ST. LOUIS, March 23.
C. P. Huntington, in an interview regarding railroad affairs, said there will be no change in the policy of the St. Louis and San Francisco railroad. The railroad will be extended as originally designed. He stated that he intends building a railroad from Eagle Pass, Texas, to the City of Mexico, and believes that it will be the first one completed, as the route selected offers less engineering difficulties and passes through a more productive country, with a population greater than any other.

The Galveston, Harrisburg & San Antonio road will be placed in a first class condition, thoroughly ballasted and the present iron rails replaced by steel rails; he will also have a line completed from San Francisco to New Orleans and Galveston about September. Mr. Huntington expressed an opinion that the ownership in R. K. means control, and that attempts to regulate freights by legislative action will lead to disaster. He favors laws to prevent freight discrimination, and said it was always his policy to make uniform rates, properly classified.

All Applications will be Denied.
WASHINGTON, March 23.
It is understood that the President, in selecting five Commissioners for Utah Territory, will nominate only lawyers, believing good lawyers to be required to properly explain the new law governing the Territory. It is stated several leading citizens of Utah have already been recommended to the President, but it is not likely that any one from Utah—Mormon or Gentile—will be appointed. It is further reported that the President has intimated that he will not nominate any one who applies, either directly or indirectly, for a position as Commissioner.

War on General McDowell.
WASHINGTON, March 23.
It was reported yesterday that General Grant during his visit here is using his influence to effect the retirement of Major-General McDowell, and the consequent promotion of Brigadier-General Pope. General Grant is strongly in favor of Pope, and others who claim to know the President's mind on the subject say that Pope will certainly get his promotion, and then go to the Pacific coast in the place of McDowell.

"Betty and the Baby."
WILKESBARRE, Pa., March 24.
A petition for the pardon of Mason, containing 5,000 names, was sent to the President to-day. One hundred dollars will be forwarded to Philadelphia next week, to be added to the cent subscription fund for "Betty and the baby."

Elevated R. R. Accident.
NEW YORK, March 24.
An engine on the Sixth avenue elevated road ran into the rear coach of the regular passenger train at Cortland Street Station this morning. Two coaches careened and would have fallen to the street had it not been for the guard railing.

Grant Loose Again.
ST. LOUIS, March 23.
Thomas M. Nichol, the New York banker, arrived here this morning in reference to General Grant's denial that he had ever conversed with him concerning Garfield and Rosecrans.

Not Guilty—Of Course.
WASHINGTON, March 23.
The star route cases came up in the Criminal Court to-day, and Colonel Ingersoll, on behalf of Stephen W. Dorsey, notified the Court that he desired to file a motion to set aside the indictment. He read the motion, which was based on the ground that the Grand Jury had no legal authority to find the indictment; that the District Attorney had no authority to draw said indictment and exhibit it to the Grand Jury. Because George B. Corkhill, the District Attorney, did exhibit the indictment without an order of the Supreme Court. Third—the District of Columbia or any Justice thereof, and straw bonds case, agreed to postpone further hearing of Dorsey and Brady until Friday next. Col. Ingersoll gave notice he should also file a motion to quash the demurrer, as Hine and others have done. Col. Bliss then asked for the arraignment of parties indicted, and Kate Armstrong, Albert E. Boone, Jas. W. Donohue, and W. W. Jacobson arranged and entered a formal plea of not guilty.

Telegraphic Brevities.
—Sarah Bernhardt is unable to perform as she is again spitting blood.
—A Vienna dispatch says four children have been kidnapped from Oltraz.
—A Dublin dispatch says there is but little doubt that the Fenians are terribly rampant there.
—The Secretary of War has ordered 10,000 rations issued at Mound City, Ill., for the flood sufferers.

Not Guilty—Of Course.
WASHINGTON, March 23.

Grand Jury Fail to Indict.
WASHINGTON, March 23.
In the Star Route case to-day, the Grand Jury did not find indictment from their own knowledge; neither were Dorsey, et. al., bound over to answer the action of the Grand Jury. Jere Wilson, as counsel for Gen. Brady, then filed a motion to quash the indictment as to his client, and after reading the paper, which set forth numerous reasons, including the want of jurisdiction, insufficient in averment of facts, to set forth the crime against the United States; because the crime set forth is not such a one as to be penal under the laws of the United States; because at the time of the commission of the acts charged the defendant was an officer of the United States Government, and his acts not subject to investigation by this court.

Relief for the Sufferers.
ST. LOUIS, March 23.
About \$8,000 in money, and a large amount of provisions and clothing have been raised here for the benefit of the overflowed sufferers on the Mississippi river. Captain Lee, in charge of the relief expedition, says the less of cattle in the Yazoo counties is fully 75 per cent., and the fencing, with many of the smaller houses, are destroyed. He recommends the distribution of rations to continue at least two weeks at Johnsonville and three weeks in the lower Yazoo counties, by which time he thinks work can be begun in the fields, and then the people can probably take care of themselves.

The Last Ceremony.
BOERCK, March 23.
The services over Longfellow will be private, at his home, on Sunday. Public services will be held at Appleton Chapel. The remains will be interred at Mount Auburn.

Jeannette Search Party.
WASHINGTON, March 23.
Secretary Hunt received a cable dispatch from St. Haber, of the Jeannette search expedition, announcing the arrival of himself and Master Schusts at Irkutsk in good health.

FOREIGN.
Foreign Fuzes.
LONDON, March 24.
There has been a continual disturbance in Galway between the 88th regiment, the Connaught Rangers, and the 84th, an English regiment. On Thursday night the Connaughts, assisted by a mob, attacked the picket of the English, and cheered for Ireland. Several bayonet wounds were inflicted on both sides.

Testimonial.
To all who may be suffering from any incurable disease, attention is called to the wonderful cures performed by Mr. A. Zimmerman of Reno, Nevada. While Mr. Zimmerman does not claim to be a physician, yet, whatever he undertakes is sure to terminate in a permanent cure. The worst kind of diseases, such as cancer and scrofula in all its worst forms, lung, liver, heart and kidney diseases, scrofula, lupus and tumors weighing from 5 to 20 pounds, scrofulous sore eyes and blindness, bleeding and blind piles in the worst form; chronic and inflammatory rheumatism, erysipelas in all its worst forms, neuralgia in the stomach; threatened and sore legs of all kinds; or falling sickness; salt rheum in all its worst forms; the seven kinds of dropsy; milk leg and white swelling; gonorreia or painful ulcer and mercurial skin, though proof against the highest skill of renowned physicians and pronounced incurable by them, are all treated by him and invariably the patient recovers and enjoys health thereafter free from all previous ailments. The remedies used by Mr. Zimmerman are simple but efficacious, consisting simply of laying on of hands and the use of a few simple medicines of his own. He does not claim any supernatural powers, yet it must be conceded from the wonders he has performed that some powerful agency is allied with him. Numerous cases can be cited of almost miraculous cures, and any person by calling on or addressing me will receive further information concerning the subject, and proofs that the above statements are true.

Look Out for the Vags.

Twice yesterday a shabbily-dressed fellow called at the house of a widow lady and insisted, without invitation, to partake of the good eatables, etc., and enjoy in general the hospitality of Reno's good people. He acted strangely, and said he had been three days without food. A neighbor arrested him to have his case investigated by the proper authorities.

UP THE RIVER.

The Outlook For a Prosperous Year in the Lumbering Business Encouraging.

Thompson & Stone, at Camp 16, will start up their shingle mill very shortly. They intend to manufacture at least sixteen million this season. They also have a contract with the Central Pacific for 5,000 cords of wood, to be delivered on the line of the road between Boca and Truckee.

The Boca Mill Company have contracted for five million feet of logs, to come down the Little Truckee river this spring.

Lonkey & Smith having bought the Banner Mill Co. property, including the box factory at Camp 16, they intend to do an immense years work. The Camp 16 box factory will start up very soon. They will also run the Banner Mill on Sage Hen creek, and their other mill on Prosser creek, besides their Verdi factory, to their fullest capacity. This firm won't cut less than ten or twelve million feet of lumber between this time and November 1st.

The Pacific Lumber and Wood Company have also let a contract for three million, to be floated down from the woods on the headwaters of the Little Truckee. This company is making extensive preparations for a heavy year's business. They will manufacture between nine and ten million feet of lumber.

J. B. Brogan has a contract for delivering 8,000 cords of wood on the road at Prosser Creek for the use of the railroad company.

Stewart McKay is making calculations to get out 2,500 cords of wood for the railroad company, to be delivered at Truckee.

T. Lower will cut 2,000 cords for the same company, to be delivered at Camp 4, seven miles west of Truckee.

The Truckee Lumber Company will soon start up their double mill, running both sides night and day, and will cut about 15,000,000 feet of lumber. Their box factory at Truckee is running full handed and crowded with orders.

George Schaffer, Truckee, will start up next month, and will do his share in making the business boom at the little mountain town. He is making calculation for a big year's work.

Richardson Brothers box factory at Truckee is nearly completed, and will soon be a busy manufactory. This firm have orders ahead to keep their factory employed for several weeks. The saw mill on Marti's creek will also be a busy place this summer, and will cut several million. They also have a contract for 2,000 cords of wood which they will get out for the C. P.

At Bronco the wood business will be rushed. A. M. Wicks has a contract for getting out 5,000 cords of wood for the railroad company and will likely get out as much more for his private trade.

Katz and Henry, at Verdi, have contracted for all the lumber they can cut until late in the season, and are making extensive calculations. Verdi will be one of the liveliest places on the river this summer.

The snow in the woods in the vicinity of the different mills is about seven feet deep, but is going off very fast. It will most likely be the middle of April before much can be done in the woods in the way of getting out wood or logging.

The lumbering industries on the river were never in a more flourishing condition than now.

Republican Club.

The young men at the Capitol are preparing for war early in the season. On Wednesday evening about thirty young Republicans met at the office of Secretary of State Babcock for the purpose of organizing a Republican club. Dr. Smart was chosen temporary Chairman and James G. Chesley Secretary. The only test subscribed to was that the members agreed to support the nominees of the Republican State and County Conventions.

A committee consisting of Jas. G. Chesley, James Torreyson, J. H. Doyle, George A. Tyrrel and E. J. Parkinson was appointed to draw up resolutions and articles of organization, to report Monday evening, at which time a permanent organization will be effected.

Military Matters.

Moger, Waggoner and Allen, who have been active in getting up a military company, only lack eight more names to make the requisite number required by law. They are anxious to have the papers prepared ready to present to Judge King upon his next judicial visit to Reno. He will call a meeting and appoint some one to act as presiding officer until an organization is effected.

At last Reno is in a fair way to have a first class military company.

Cattle Notes.

Wm. Hoper shipped 64 head of stock to the San Francisco market last night. He has about three hundred head to come in from Fort Churchill and Genoa, Douglas county, within the next week or ten days. He has quite a drove feeding on G. Derby's ranch, on the meadows, which will be shipped to Moffitt Bros., San Francisco. Mr. Hoper is their agent.

Strike at Pyramid.

Antone Dragovich and M. Millett have sunk a shaft on their Gold Wheel ledge, at Pyramid, and struck good ore, assaying from \$35 to \$180 per ton.

SUICIDE.

The Effects of a Blow on the Head of Jno. Hoffman, by a Cowardly Sneak Thief.

John Hoffman, an old and highly respected citizen of Virginia, ended his life yesterday by taking a dose of laudanum. The *Enterprise* says: Yesterday morning, about 6 o'clock, Patrick Kennon, who did chores about Hoffman's residence, went to the place to feed the chickens. As has been his habit, he then went into the house to awake Mr. Hoffman, who had a saloon on C street, get the keys and come down town and clean up the saloon. He found that he could not wake the old man, and his stertorous breathing became so alarming that he came down town and summoned Dr. Kirby, and on his arrival the doctor saw at once that the old man was suffering from an overdose of some opiate. He at first supposed the drug was morphine, but after a time found a glass hidden away in a corner in which remained two or three drops of laudanum.

Proper remedies were applied, and at one time the breathing of the patient improved, but in an hour or two he relapsed into the first state. He lived till about 4:30 o'clock in the evening, when he breathed his last. Meantime, however, about two hours after his arrival at the house, Dr. Kirby had found under an inkstand on a table the following note, which made it plain that the poison had been taken with suicidal intent:

"My head troubles me so much that I am tired of life. I appoint Mr. Finck, of the firm of Thomas Taylor & Co., and Louis Reick as administrators. Let them sell bar-room, house and furniture and pay my debts. I think there will be enough left to do it. Good-bye, friends."

"JOHN HOFFMAN."

It will be remembered that John Hoffman was knocked down with a slung-shot in his saloon one night some months ago, by parties who were evidently intent upon robbing his place. For this the Caldwell brothers were arrested, and sufficient evidence found against them to send them to the State Prison where they still remain. Although the old gentleman recovered from the blow that injured his skull, so far as to be able to attend to his business, his head ever after gave him great trouble. It pained him nearly all the time, and frequently he suffered intensely. At times he has suffered so much as to be a good deal disordered in mind. His spells of frightfulness have been observed by his friends, but no one had any idea that he harbored any intention of ending his sufferings by taking poison.

Deceased was a native of Germany, about 55 years of age and unmarried. He came to the Pacific coast over 30 years ago, and at one time mined in Sierra county, California. He was a member in good standing of Nevada Lodge No. 7, I. O. O. F., and was a man highly respected by all who knew him.

It is thought probable that a spike of bone-matter may have formed within the skull under the place where the blow fell, which spike may have grown into the matter of the brain, thus causing the pain and derangement of mind he suffered.

Cattle From the Lone Star State.

The Texas cattle drive of this season is estimated at about 300,000 head including those that will come out of the Indian Territory. This vast army will be shipped to Chicago and St. Louis. It is said that three and four-year-old cattle will be scarce. The average price of the cattle already contracted for is, for yearlings, \$13, and for two-year-olds, \$16. Though the outlook for a prosperous cattle business for the summer of 1890 is unusually good, the extent of the cattle-trade for the next few years will exceed the wildest prediction of the most sanguine.

A Genoa Man's Crop.

A Genoa man claims to have discovered a method by which cucumbers can be grown already pickled and ready for the table, the pickles being covered with a fine quality of vinegar when gathered early in the morning. Beat that, ye all-absorbing Renosites, if you can!—*Courier*.

The *Gazette* gives it up. This must refer to the next Democratic candidates—pickled (sour) before the election comes off.

Injured by an Avalanche of Snow.

EMIGRANT GAZ, March 24.
ED. GAZETTE: Louis Jordice, fireman on engine No. 44, while taking water at Blue Canyon this morning, was struck by snow sliding off the water-tank roof, which dislocated his left shoulder and hip and fractured his skull. It is thought he sustained internal injuries. P.

A Good Theme.

"The Aesthetic Phases of Chinatown" will be the subject of one of Oscar Wilde's lectures in San Francisco.

FROM DIXON.

Grain and Fruit Prospects in the Sacramento Valley.

EDITOR RENO GAZETTE: Dear Sir—Every place has some common cause for faultfinding. In Virginia City people complain of the flat stock market; in Keno you complain of dull times; in Sierraville they complain of hard winters and grasshoppers; in Dixon the complaint has been because the clouds did not pour down more rain to make good crops, but last week the rain God gave us a liberal supply, but now the streets are muddy. And so it is—always something to complain of—and scarcely ever are the masses thankful for the good things which they do enjoy. I know of no people who are more highly favored than the people of this community. Crops are as sure as anywhere, and the market is good, the country wealthy and fruit and ornamental trees can be raised with very little trouble. In fact, this is a garden spot for fine grapes, pears, peaches, apricots, flowers, ornamental and nut trees. Ten years ago some of the ranchers tore up their grape vines, and now the same ranchers are planting them again. Dixon is a town with about 1,000 people, 12 saloons and all the various kinds of business necessary in a farming country. About 11 1/2 inches of rain have fallen this season, and a crop is almost a certainty now. Society is good, with plenty of harmless local amusements for those who want amusement. The flowers bloom out of doors all winter here. The Sunday law is not in force here at present, and gambling games can be had at any time. Coursing races are frequent. The grain is six to 20 inches high and looking finely. One rancher here (Judge Marryfield) has a plow that cuts 24 inches wide and 18 to 20 inches deep, drawn by 20 horses or mules, but most of the ranchers cultivate from five to six inches deep, and the result is as good as the deeper cultivation. There are four physicians, including myself, and the place is very healthy at present. We have no sewers and Dixon is very filthy, with the wells and waterclosets in close proximity, and if Nature's God does not do more to purify the atmosphere than the people are doing, some symptomatic epidemic will be the result of the approaching hot weather.

Yours Respectfully,

DR. M. PRITCHARD.

DIXON, Cal., March 24, 1890.

Beef Cattle.

A. A. Longley has 102 head of fat beef cattle for sale after Lent. He thinks those who have observed the Lenten season will appreciate fat beef. He will furnish it. Mr. Longley will have 80 head of yearlings and two year olds ready to market in May or June. Mr. Longley has been feeding his stock with hay for four years past, and says he has realized better prices for his hay than when he used to haul it to his land, besides the benefit it is to his land. He calculates that the manure is worth to his land at least \$1 for every ton of hay fed.

Sold For Taxes.

The Grass Valley Union says: Nevada county and the State now own a railroad, or will own one if the claimants do not come forward in time and pay the taxes on the same. The County Treasurer has sold that portion of the Central Pacific Railroad that runs through this county for delinquent taxes, and in the absence of bidders knocked it off to the sovereign powers above-named.

Church Notices.

Church service in the Methodist Episcopal Church at 11 A. M. and 7:30 P. M. Sunday School at 12:30. Singing service at 7 P. M. G. W. De La Matyr, Pastor.

Rev. Dr. Scott will preach morning and evening at the Baptist Church tomorrow. The praise service will be conducted by Prof. Stimson, and will be very interesting.

Disappointed.

About three hundred old, middle-aged and young ladies visited the depot last evening on the arrival of the train from the east, to meet Oscar Wilde. The aesthetic young man failed to put in an appearance. He will arrive to-night, having been delayed one day on the road.

Spring Stock.

Jno. Sunderland is receiving his spring stock, and will soon open one of the most extensive invoices ever shown here. His stock of spring hats are beginning to arrive. Mr. Sunderland knows what the market requires, and takes good care that it is supplied.

Ditched Train.

The southern bound train on the C. & C. Railroad came to grief at a spur track near Woodworth, on the Carson river, yesterday morning. Several cars were ditched. Gus Thamb, the fireman, was slightly injured. No further damage.

From the North.

The Surprise Valley stage reports that the water at Buffalo Canyon is very high, and the roads bad.

McGregor's Condition.

Alex McGregor is growing worse daily, and is very violent now. He will be taken to Stockton early next week.

The Musical Convention.

The coming musical convention promises to be a decided success. Most cheering reports come from the musical friends of Virginia, Carson and Wadsworth. Large delegations are expected from these places. Mr. Fowler, of Wadsworth, who is a whole "music box" in himself, will be here, and writes: "It is a glorious enterprise, and I sincerely hope it may be a splendid success, and place Nevada on a fair footing with her older sister States." The reputation and genuine abilities of Professor Perkins ought to draw to Reno all the musical people of the State. Renosites will undoubtedly do all in their power, not only to attend, and thus get the benefit of it, but make the stay of those who come so pleasant that they will all want to meet with us again. The *Cleveland Leader* says of Mr. Perkins: "If any man possesses the rare faculty to awaken a lively social, and we may say jolly feeling among a convention of singers, and at the same time get out of them the greatest amount of earnest, thorough, hard work, with economy of strength and time, it is Mr. Perkins."

R. A. Masons at Carson.

At a communication of Lewis Chapter, No. 1, at Carson last evening for work in the R. A. degree visitors were present from Reno, Virginia, Gold Hill and Dayton. About 40 from Virginia put in an appearance. Among the number were E. Strother, H. P. Virginia Chapter, No. 2; Mr. Aiken, W. M., Virginia Lodge, No. 3; Mr. Hobb, W. M., Gold Hill Lodge, No. 5; R. M. Daggett, P. M.; T. P. Hawley, P. H. P.; and C. N. Noteware, of Lewis Chapter, and Frank Bell, G. H. P., and C. A. Bragg, E. K., of Reno Chapter. Companions and visitors were present to the number of 75, and a splendid time was enjoyed by all fortunate enough to be present.

One More Dance.

President Evans, of the Riverside Social Club, think the Club will most likely give another party at the close of the Lenten season. Most of the members favor it.

Lost The Manuscript.
A St. Louis woman advertises that she has lost the manuscript of a lecture on "The Birth, Mission, and Destiny of the Great American Republic," as Foreshadowed in the Sacred Scriptures, and the White Horse of Revelation, so vividly foretold in the Gorgon's Symbolic Language of St. John. She offers no reward for its return, because any sum which she could pay would be ridiculously below its value; but she trusts that the finder will have a regard for the great public gain which would follow its restoration.

More Light.
"La lampe soleil" is a new electric lamp of French origin. It consists of a small block of marble, into which two holes are bored for the reception of carbons, which at their points are separated by a thin partition in the marble. The current passing through the marble renders it incandescent, and produces a soft and brilliant light like that of the sun—whence the name. The cost is said to be one penny an hour.

H. H. Warner & Co., Rochester, N. Y.
GENTLEMEN: Your remedy, the Safe Kidney and Liver Cure has been used by both my wife and myself. She used it "on general principles" as a safe and liver regulator; I took the medicine for a long-standing liver trouble, which has been the source of much inconvenience, and which failed to yield to the doctor's remedies, or any other, until I used your Safe Kidney and Liver Cure. We both unite in pronouncing it to be the best medicine ever used, and in recommending it to others as a safe remedy.

MY DEAR SIR: For several years I have been a sufferer, and until your Safe Kidney and Liver Cure was used, I have not known what it is to be free from pain. My family physician attributed all my suffering to a diseased condition of my kidneys, and after he had failed to give me relief, I tried your remedy, and I feel a well man to-day.

THE STATE OF NEVADA SENDS TO

William Thompson, R. D. Alvey, J. H. Dall, E. Twaddle, E. Owens, Joseph Frey, Mrs. Reuben Perkins, Harvey Perkins and G. Carasco

GENTLEMEN: You are hereby required to appear in an action commenced against you as defendant by Mrs. L. S. Bowers as plaintiff, in the District Court of the Second Judicial District, in and for the County of Washoe, State of Nevada, and answer the complaint therein within ten days after the service upon you of this Summons (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but in all other cases forty days; or judgment will be taken against you according to the prayer of said complaint. The said action is brought to recover a judgment against you defendants and in favor of plaintiff, for the sum of \$500 gold coin, damages alleged to have been sustained by plaintiff by reason of the breaking and running away of a certain dam belonging to you defendants, which you erected across the natural channel of Franktown creek, in said county, and thereby obstructed the flow of the waters of said creek, plaintiff alleging that by reason of your unskillfulness in the construction of said dam, and your gross negligence, inattention thereto, and mismanagement thereof, the said dam was broken, and the great flow of water therefrom, on or about the 3d day of February, A. D. 1881, washed up plaintiff's land and premises, near Franktown, in said county, described in the complaint, large quantities of sand, rocks, etc., which now remain thereon, and damaged her dwelling house thereon to her damage as aforesaid to \$500; all of which more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said county.

And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will take judgment for the said amount, besides interest and costs of suit.

In testimony whereof, I, R. S. Osburn, have hereunto set my hand and affixed the seal of said Court, this 30th day of December, A. D. 1881.

The said action is brought to recover a judgment against you in the sum of \$4,484 for damages alleged to have occurred to plaintiff by reason of the destruction of plaintiff's dwelling house, furniture, etc., and damage to plaintiff's land, etc., in said county, alleged to be in the sum of \$3,482, and damage to plaintiff's goods, wares and merchandise, there situated, in the sum of \$500, which damage, amounting in all to \$4,484, was caused by the breaking of a dam belonging to you defendants and situate on Franktown creek, in said Washoe county, whereby said creek was overflowed and plaintiff's said land was covered with sand, gravel and so forth, and greatly damaged, and his dwelling house and other buildings destroyed and his said goods damaged as aforesaid.
